INTRODUCTION

This appendix includes OSPA pay and leave codes and those PPDB differential codes that you may also enter on the P050 Gross Pay Adjustments screen in OSPA. It lists the OSPA pay and leave codes first. The two main categories of OSPA codes are: Time Sheet Codes and Gross Pay Adjustment Codes. The two main categories each have the following smaller groups within them:

Time Sheet Codes (P003, P004 Screens)	Gross Pay Adjustment Codes (P050 Screen)
<ul style="list-style-type: none"> • Compensatory Time Accrual • Differential Codes, Time Sheet • Leave Codes • Overtime Codes • Per Diem Codes • Premium Pay Codes • Straight Time Worked Codes 	<ul style="list-style-type: none"> • Differential Codes, P050 • Expense Reimbursements and Fringe Benefits Codes • Leave Payoffs • Lump Sum Payments • Special Payments • Volunteer Codes

The PPDB differential codes follow the OSPA codes.

If you are unable to find the code you want under these categories, see the index at the end of this document.

NOTE - If you have questions about whether a pay type is taxable, PERS-subject, maximum accrual allowed, etc., you may look it up on the OSPA PTB1 and PTB2 Payroll Benefit Table screens by benefit package code. See Screen Descriptions, PTB1 and PTB2.

SPECIAL CODE DESIGNATORS

For some OSPA pay and leave codes, you may add a digit to track their use for a special purpose. For example, the digit may show the employee is on protected leave, such as FMLA or CBIW. Or, it may tell OSPA to not use the hours when accruing leave.

Codes that can use these special designators have an asterisk (*) beside them. Not all designators are available for the codes with an asterisk. See the PTB2 Payroll Benefit Table screen for the codes for a particular benefit package. If you want another pay code added to the benefit package, contact the OSPA Help Desk (OSPS.Help@das.state.or.us).

Designator	Used for	Examples
F	Hours taken under FMLA ¹	VAF, GLF

¹ FMLA = Family Medical Leave Act

Designator	Used for	Examples

THE PPDB DIFFERENTIAL CODES

OSPA may calculate fixed PPDB differentials with a percent or a set amount. HR staff enters them in the PPDB. You may view them in OSPA on the P030 Job Status Data. If you need to correct a PPDB entry, you can make a one-time entry with one of these codes on the P050 Gross Pay Adjustments screen.

Not all of these codes are in OSPA. Check the PTB2 screen to see if this code is in the employee's benefit package. If you need a code activated for one-time use, please contact the OSPS Help Desk, OSPS.Help@state.or.us or (503) 378-OSPS (6777).
